

THE COLORADO COLLECTION / 2026

The kitchen.
Beyond the house.

Outdoor cabinetry, beautifully considered.

MARINE-GRADE POLYMER / MODULAR METAL

LIFE, OUTSIDE

Make room for the way you gather.

A place to prepare. A place to serve. A place to stay a little longer. Elevation brings outdoor storage, cooking and entertaining into one coordinated kitchen.

Start with the way you use your patio. Then choose the cabinet collection, finish, countertop and appliance layout that bring the whole space together.

EXPLORE THE COLLECTION

Find your starting point.

CHOOSE YOUR COLLECTION

Two materials.
Two distinct expressions.

MARINE-GRADE POLYMER

Warmth. Choice. Detail.

A broad cabinet system with door, drawer, appliance and finishing configurations. Explore wood-grain and standard colors, coordinating doors and hardware.

MODULAR METAL

Clean lines. Simple modules.

A coordinated selection of storage, sink, cooking and corner units in Slate Gray glass-front or White Shaker styling.

Select components within the chosen system. The two collections have different dimensions, accessories, installation details and product coverage.

01 / MARINE-GRADE POLYMER

A warmer way to live outdoors.

Flexible cabinetry. A personal palette.
An outdoor kitchen that feels like home.

POLYMER / THE DETAILS

Designed around everyday use.

Material character

Marine-grade polymer is designed for outdoor exposure. Explore colors and wood-grain looks that coordinate with your home.

A coordinated system

Door, drawer, sink and appliance planning combine with finished ends and backs for a complete kitchen.

The details matter

Coordinate handles, doors, countertops and storage. Confirm the selected model and finish before ordering.

Appliance-first planning

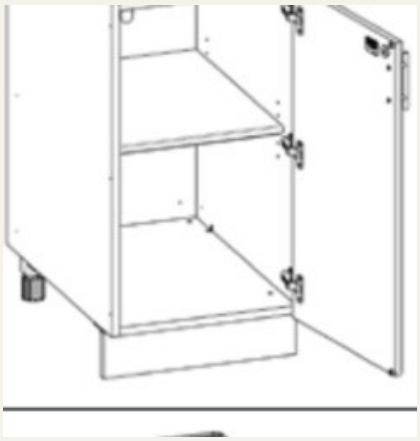

Start with the exact grill and appliance requirements. Match openings, ventilation, services and access to the layout.

POLYMER / CABINET FAMILIES

Give everything a place.

Doors & drawers

Choose everyday storage, drawer organization and pull-out configurations.

Cooking & appliances

Coordinate grill, refrigeration and specialty appliance openings with the equipment you select.

Sink & cleanup

Plan plumbing access, storage and the countertop opening as one connected assembly.

Islands & finishing

Use backs, end treatments and preconfigured island options to finish the kitchen from every angle.

The full product drawings and available size ranges are in the companion Specification Guide.

POLYMER / THE COLOR PALETTE

A finish that feels like you.

WOOD GRAIN

STANDARD COLORS

Layer warmer cabinet tones with natural stone, or keep the kitchen quiet with a clean neutral palette. Coordinate exposed doors, cabinet interiors and finishing pieces within the selected collection.

Printed and screen colors are approximate. Make final selections from physical samples. Interior colors have a more limited selection; confirm the complete specification.

POLYMER / COUNTERTOP SELECTIONS

The surface that brings it together.

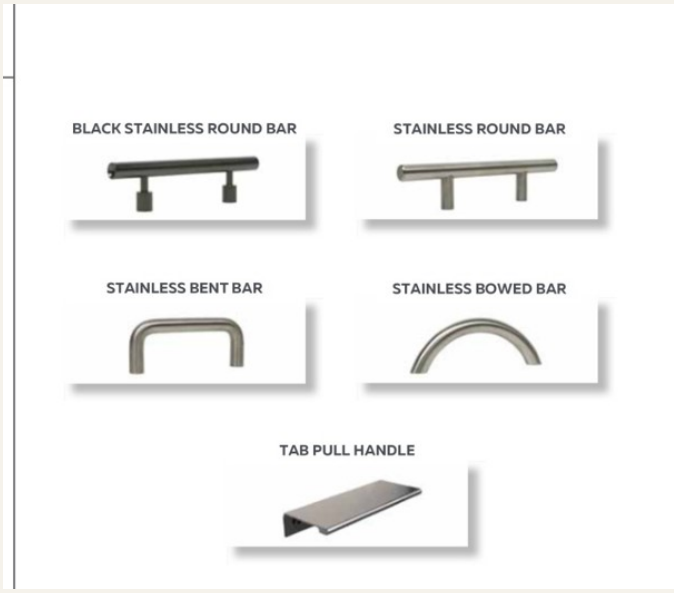

Let the countertop connect the cabinet finish with the surrounding patio. Consider the color, edge, overhang and the way the surface meets every appliance.

Confirm the available top, cutouts, supported spans and installation details with the selected cabinet system and fabricator. Sample availability and final selections are confirmed at ordering.

POLYMER / DOORS & HARDWARE

Small decisions.
A complete expression.

The door profile

Coordinate the cabinet face with your home: quiet and architectural, or warmer and more traditional.

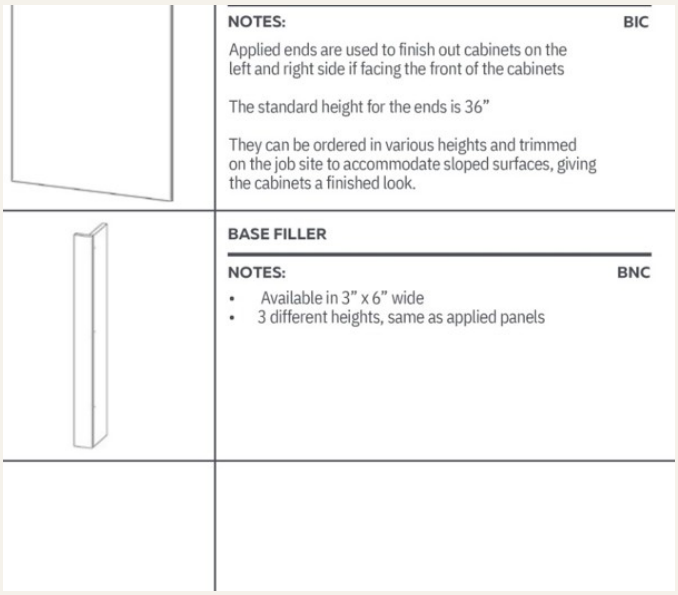

The finishing touch

Handle shape and finish bring a different rhythm to doors and drawers. Confirm compatibility with the selected model.

See the Specification Guide for the complete door and hardware selections.

POLYMER / COMPLETE THE KITCHEN

Beautiful from every angle.

Ends & backs

Plan exposed surfaces with the same care as the cabinet front. Applied end and back options help resolve freestanding kitchens and islands.

Preconfigured islands

Explore established island arrangements as a starting point, then confirm the exact components, dimensions and appliance fit.

POLYMER / INSPIRATION

A kitchen worth stepping outside for.

Bring together the useful and the beautiful: generous prep space, storage close to hand, and a place for people to gather.

Coordinate cabinetry with Elevation shade, stone, porcelain and furniture through Colorado Patio & Shade.

02 / MODULAR METAL

Clean lines.
Open possibilities.

Purpose-built modules for cooking,
preparation and entertaining.

MODULAR METAL / TWO STYLES

Find your expression.

Slate Gray

Tempered-glass fronts and brushed aluminum handles create a clean, contemporary look.

White Shaker

Recessed panel styling brings a bright, classic finish to the outdoor kitchen.

This collection pairs powder-coated steel cabinet bodies with aluminum trim. Applicable models include soft-close operation and adjustable leveling feet.

MODULAR METAL / EVERYDAY STORAGE

Four essential modules.

All four base units: 30" W x 25.25" D x 37.25" H. Countertops selected separately.

Two-door base

Adjustable shelf and soft-close doors.

One-drawer / two-door

A top drawer with adjustable shelf below.

Three-drawer base

Soft-close drawers with adjustable dividers.

Sink base

Plumbing ports and storage. Sink and faucet selected separately.

MODULAR METAL / COOKING STATIONS

Build around your grill.

30-inch grill-insert cabinet

34" W x 26" D x 31" H

36-inch grill-insert cabinet

40" W x 26" D x 31" H

Kamado cabinet

30" W x 26" D x 31" H. For kamado grills up to 21.5" outside diameter; adjustable shelf and stainless-steel top included.

Nominal grill size does not establish fit.

Grills are sold separately. Confirm the exact appliance cutout, support, ventilation, utility access, clearances and any required insulated liner before finalizing your order.

MODULAR METAL / THE COMPLETE LAYOUT

Turn the corner. Keep drinks close.

Corner cabinet

52" W x 26" D x 36.5" H. A 90-degree transition with adjustable shelving and soft-close doors. Countertop selected separately.

Refrigerator surround

30" W x 26" D x 35" H. Fits appliances up to 23.5" W x 24.25" D x 34.25" H. Appliance and top sold separately.

Use an outdoor-rated refrigerator and its required ventilation clearances. Confirm corner handedness, access and countertop geometry.

MODULAR METAL / FINISHING PIECES

Make every module work harder.

Coordinate the top

Standard cabinet and sink tops: 30" W x 26.02" D x 1" H. Extended options: 30" W x 36.02" D x 1" H.

Resolve the corner

Corner tops: 52" W x 26" D x 1.77" H. Extended depth: 36". Confirm the selected cabinet and top combination.

Organize & clean up

Explore pull-out trays, trash storage, the drop-in sink and pull-down faucet. Specify accessories separately.

Finish exposed surfaces

Coordinate side panels, plumbing covers, refrigerator fillers and a compatible collar for a custom top.

LAYOUT IDEAS

Start with the way you move.

The straight run

A simple sequence for storage, preparation and cleanup.

The corner kitchen

Connect two runs with the correct corner component.

The focused station

Keep cooking and nearby storage in one compact zone.

Layout diagrams illustrate relationships only. Final dimensions, openings, overhangs, access and services depend on the chosen collection and appliances.

THE COMPLETE OUTDOOR PALETTE

One kitchen.
A whole outdoor room.

Ground the palette

Connect cabinet warmth to natural stone, porcelain or concrete paving.

Frame the gathering

Coordinate shade, screens, furniture and lighting around the kitchen.

Our Westminster showroom helps you see the materials together before you decide.

PLAN WITH PURPOSE

Five decisions.
One better kitchen.

01 **Choose the collection**

Select polymer or modular metal before coordinating sizes and components.

02 **Select the appliances**

Record exact model numbers, cutouts, clearances and service needs.

03 **Draw the layout**

Plan cabinet runs, corners, exposed backs, access and working space.

04 **Coordinate the finish**

Confirm cabinet colors, doors, hardware, tops and surrounding materials.

05 **Review the complete order**

Resolve dimensions, inclusions, accessories, delivery and installation scope.

INSTALLATION & CARE

Plan carefully. Enjoy it longer.

A suitable base

Confirm a level, adequately supported surface. Resolve drainage and the complete cabinet support plan before installation.

Services & appliances

Coordinate gas, water and electrical work with qualified trades and the appliance instructions.

Countertop coordination

Resolve support, cutouts, overhangs, joints and appliance clearances with the fabricator.

Everyday cleaning

Follow the collection-specific care instructions. Select cleaning products and methods appropriate to each finish.

Seasonal planning

Prepare water lines and exposed equipment for freezing conditions. Use the selected appliance and cabinet instructions.

Collection-specific coverage

Polymer and modular metal have separate care and warranty terms. Review the applicable written coverage before ordering.

THE COMPANION SPECIFICATION GUIDE

Keep the details close at hand.

The inspiration lives here.
The product details live in the guide.

Cabinet drawings & sizes

Original polymer product drawings and selection ranges, plus modular metal dimensions.

Colors, doors & hardware

The complete source finish selections and coordinated components.

Countertops, ends & islands

Original selection pages with layout and finishing options.

Care & written coverage

The original polymer care and warranty pages, with separate modular metal planning notes.
